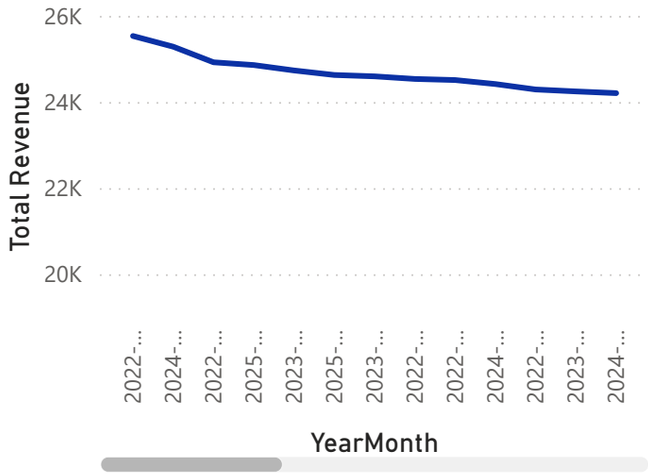
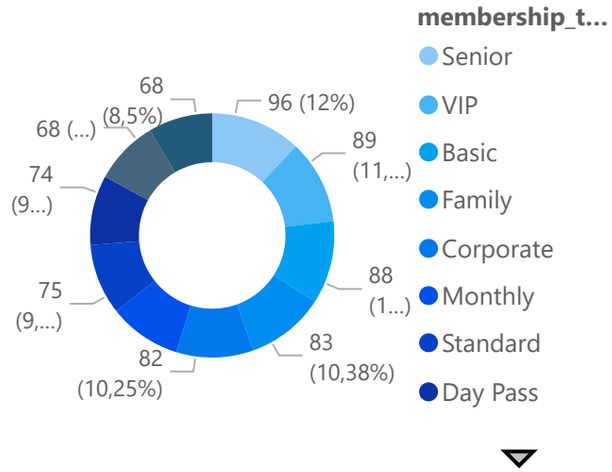
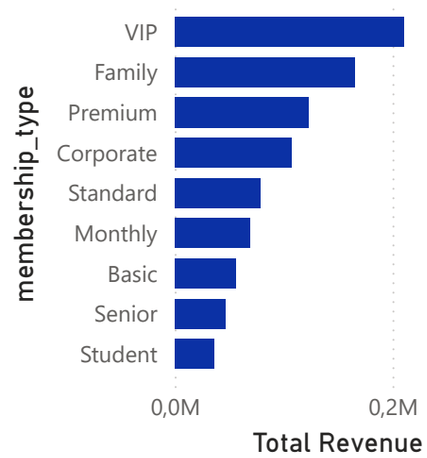
Monthly Revenue 2022-2025



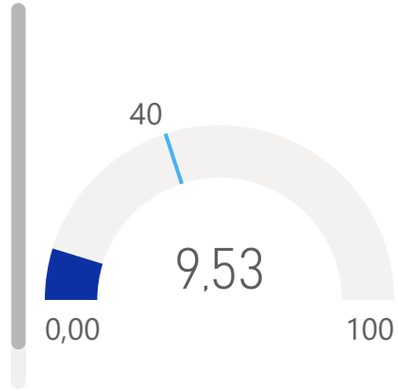
Membership Mix



Total Revenue by membership_type



Payroll / Revenue Ratio



Monthly Revenue down 25% (2022–2025). This urgent decline requires an immediate shift toward **retention and acquisition** strategies to stabilize cash flow.

VIPs contribute 11% of revenue despite being a small segment. To drive growth, we must prioritize **Premium and VIP tier conversions** from our active base.

Payroll is 64% of revenue, far exceeding the **40% industry benchmark**. A review of **staffing costs vs. session load** is critical to improving profitability.

Attendance & Engagement

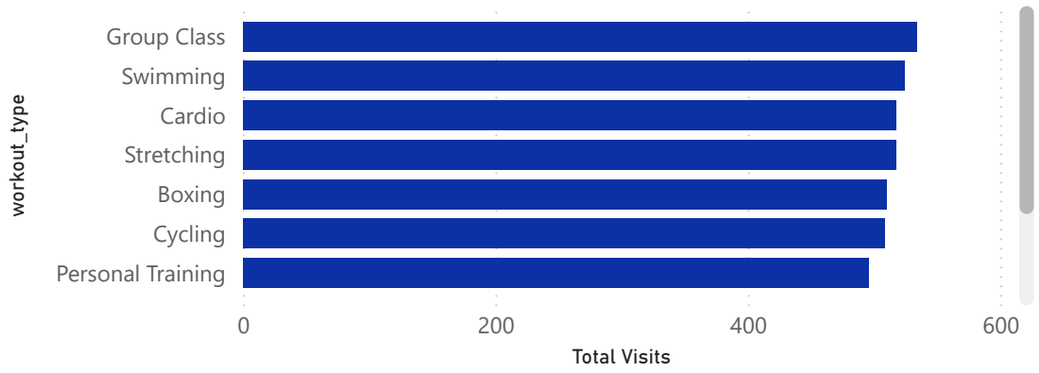
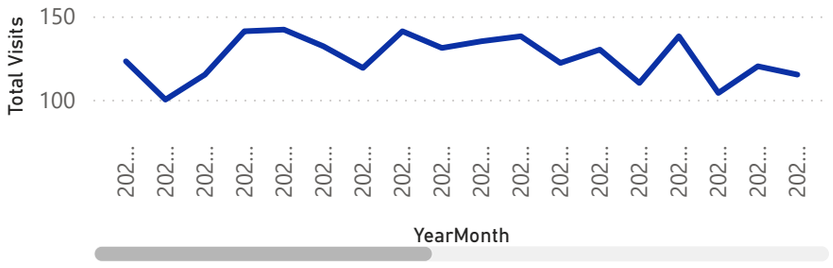
- Group Class

Visits by Workout Type



100% of members flagged as Churn Risk. Immediate intervention required: launch a **targeted re-engagement campaign** with tiered discount offers to recover the active base.

Monthly Visit Trend



Low ROI on Strength Equipment: Strength training represents only 8% of visits despite high equipment costs. **Action:** Incorporate "Strength Circuits" into high-volume **Group Classes (11% of visits)** to maximize asset utilization.

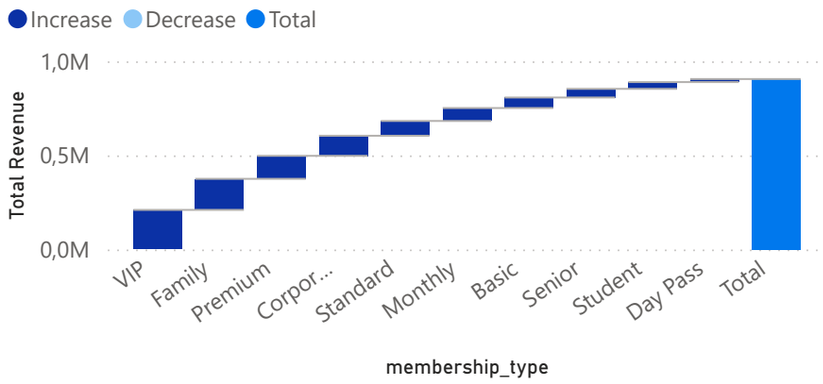
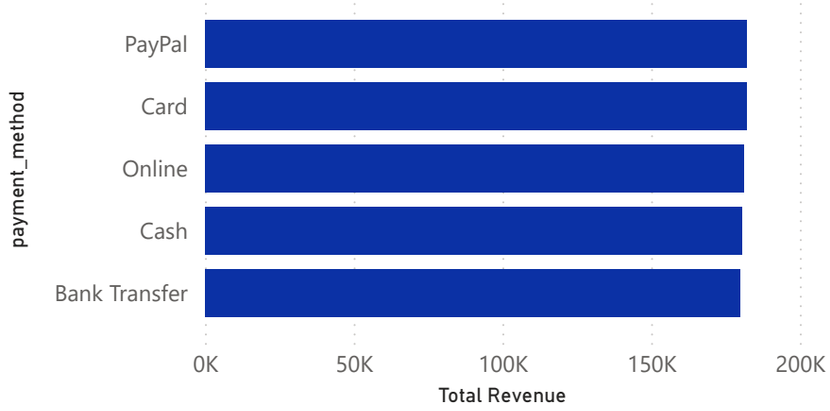
2022 — 2025

Revenue by Membership Type



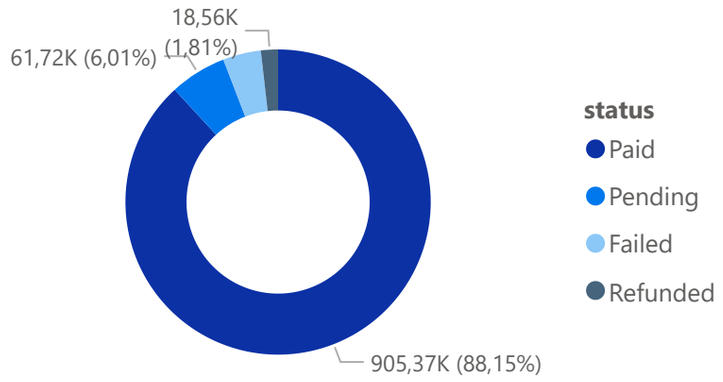
Revenue by Payment Method



VIPs generate 23% of total revenue. Strategic Opportunity: Convert **Student, Basic, and Day Pass** tiers to VIP/Premium using **loyalty rewards** to maximize Lifetime Value (LTV).

Fixed Payroll Risk: Payroll does not scale with the **24% revenue decline**. With classes only **51% full**, we are paying for "empty rooms." **Recommendation:** Transition to a **Variable Pay Model** (Base Rate + Per-Head Bonus) to align labor costs with actual attendance.

Payment Status Breakdown



6% Revenue Leakage identified due to failed/refunded payments. **Action:** Implement a **2% "Auto-Pay" discount** to shift users from manual PayPal/Cash to reliable **automated card payments**.

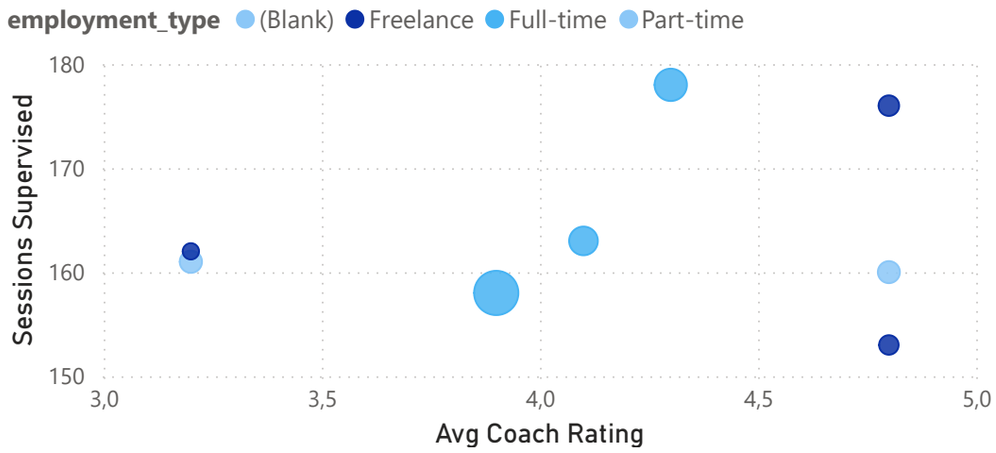
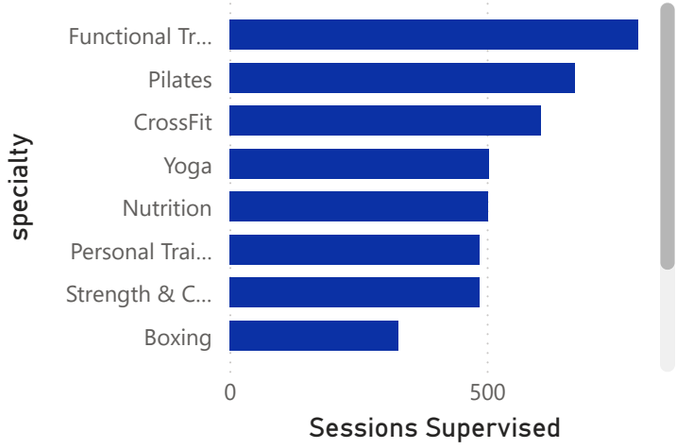
Coach Performance — Sessions vs Rating



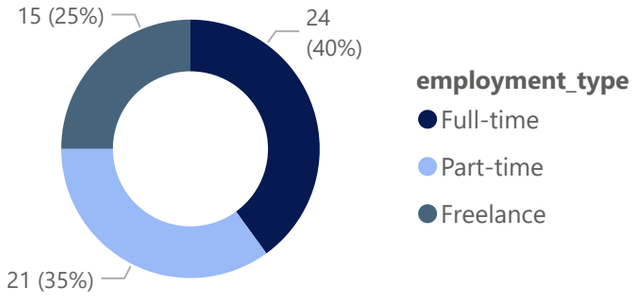
Sessions by Coach Specialty



Functional Training & Pilates drive **31% of total sessions**. These "Power Specialties" should be the primary focus for **recruitment and equipment investment** to meet high demand.

Average coach rating for **functional training** classes is **3.2**. In order not to loose members and ensure new members visits we need to make sure high rating (**4,8+**) **coaches** are **supervising sessions** at **peak times** in most common classes.

Coaches by Employment Type



Critical Legal Risk: 50% of Functional Training coaches face **imminent license expiry**. **Action Required:** Immediate certification renewals are mandatory to prevent class shutdowns and operational liability.

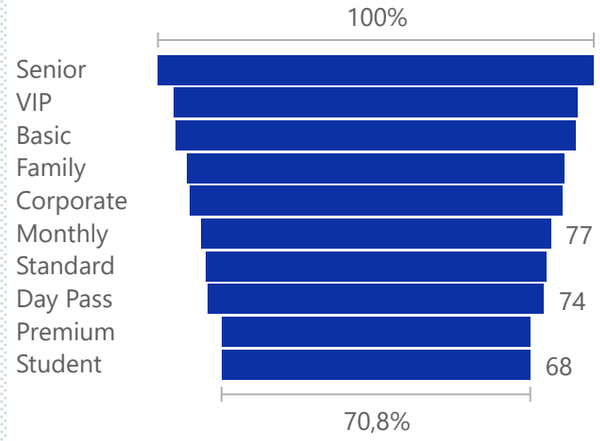
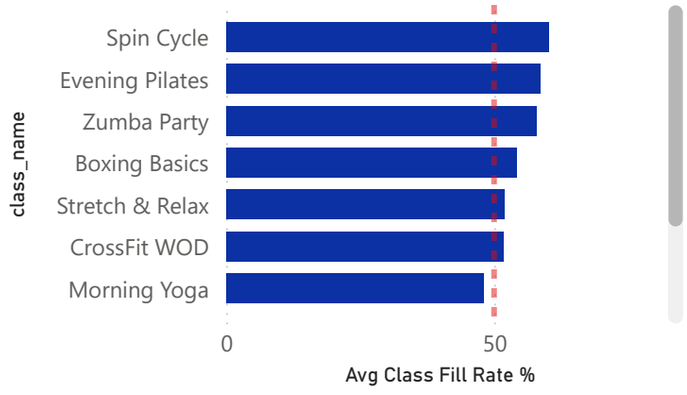
Membership Tier Distribution



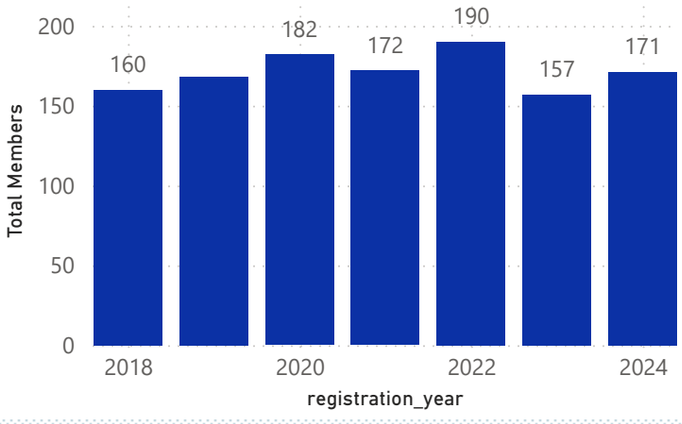
24% Referral Rate significantly exceeds the **5–10% industry average**. While this indicates **exceptional member loyalty**, a review of data collection methods is recommended to ensure accuracy.

Class Fill Rate by Class Name



€3,882 Monthly Revenue Upside: Converting **74 High-Engagement Day Passers** to the Premium tier would result in an **81% revenue increase** from this segment alone.

New Member Registrations per Year



Inconsistent Acquisition since 2022 makes **internal tier upgrades** a more cost-effective growth strategy than expensive external marketing campaigns.

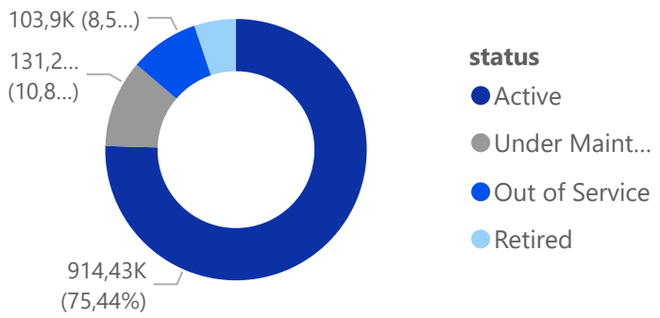
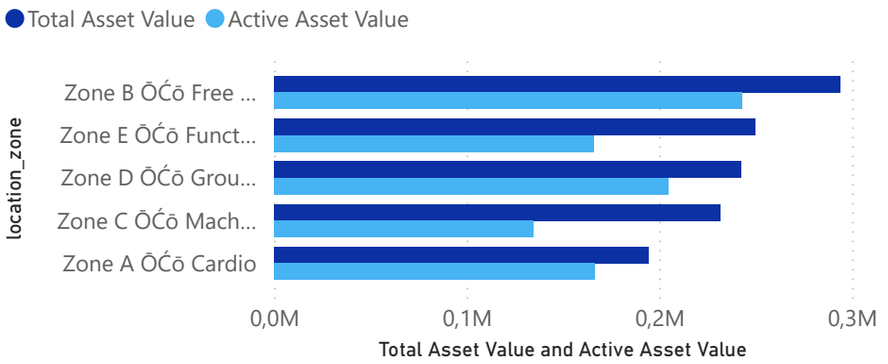
Equipment Status Breakdown



100% of Active Units Overdue: All 150 active machines require immediate service. Protecting this **€914K asset investment** is critical to avoid total operational failure and safety liabilities.

Total Asset Value by Zone



9-Year Service Gap: Equipment in the high-traffic **Functional Zone (€250K value)** hasn't been serviced in **3,336 days**. This represents a catastrophic risk to our most popular revenue stream if a breakdown occurs.

Asset Mismatch: The Free Weights Zone holds the highest value **(€293K)** but the lowest utilization. **Recommendation:** Reallocate these assets into popular **Group Classes** to increase the "Return on Equipment."
